**PROSTATE SCREENING CLINIC**

*Free Prostate Screening Clinics in Asheboro, NC. Clinics will be held on Tuesday October 11 and Thursday October 13, 6:00 pm – 8:00 pm.*

October 3, 2011--The North Carolina Prostate Cancer Society (NCPCS) is pleased to announce that we are joining with the Asheboro Urology Clinic to provide a free Prostate Screening Clinic. Prostate gland examination and PSA (Blood Test) are important for early detection of Prostate Cancer. The PSA Blood Test lab fee will be paid by NCPCS.

The Clinic will be held at the Asheboro Urology Clinic, 283 White Oak Street, Asheboro, NC on Tuesday October 11 and Thursday October 13 from 6:00 pm – 8:00 pm. Call 336-625-3997 to register. Ask for Christie Barnes.

All men are at risk for developing prostate cancer. In fact, one in six American men will be diagnosed with prostate cancer during their lifetime and one in thirty-six will die from this disease. An estimated 240,000 new cases of prostate cancer will be diagnosed and approximately 33,000 men will die from prostate cancer this year. Early detection saves lives.

It is the mission of NCPCS to heighten awareness, promote detection, and provide support to men and their families relative to prostate cancer. NCPCS is a nonprofit corporation registered with the state of North Carolina.
